

Struktura bibliografskega zapisa pri elektronskih časopisih

Pri večini ponudnikov elektronskih časopisov je pojme možno iskati po polnih besedilih dokumentov (člankov), lahko pa iščemo tudi po izbranih poljih, kot so npr. **naslov dokumenta, izvleček, ključne besede, naslov vira, založnik** ipd. Iskalna polja so odvisna od ponudnika časopisov. Izpis je ponavadi na voljo v več formatih:

enostavni bibliografski format (avtorji, naslov dokumenta, vir (naslov revije) ...)

razširjeni bibliografski format (enostavni format +izvleček +ključne besede)

format PDF (polno besedilo)

format HTML (polno besedilo)
